ing their shops Sunday mornings. A resolution was finally prepared which will be presented to the journeymen barbers. The resolution provides for closing at 8 o'clock week nights and at 9:30 Saturday nights. The shops are then to be opened from 8 until 11 o'clock Sunday mornings. In the resolution a provision is also made for a half day off each week for each barber. In the meantime things will continue as they are at present.

Thursday afternoon at 4 o'clock the fire department was called out to the barn in the rear of Henry Schuetter's house on Ripley, between Third and Fourth streets. The fire was put out with little trouble and the damage will not exceed \$50. The barn is the same one that caught fire about three weeks ago, and the fire was in the hay mow both times. About 8:30 a shed in the rear of the residence of C. J. White, on Harrison and Fifteenth streets, caught fire and the department made a run for it, but upon arriving discovered the fire had been put out.

The official designation of the street in Dentison's new addition that is to become a part of the city, which was objected to by Ald. I. B. Miller, arrested by a posse near Pleasant Valley, for assaulting two er. Chief Martens visited the county jail to get a look at the man and he instantly recognized him as the one who was incarcerated in the jail here some two months ago. Miller was arrested at the time for assaulting a little girl who lived on the hill and whose story was a pathetic one. Enough evidence could not be secured against the man to hold him, however, so he was held for assault only and was given 30 days in jail. When turned loose he disappeared and the police have not seen or heard of him until he showed up in the Pleasant Valley trouble. Miller has been confined to the jail for ten days while evidence is being collected in the case and every effort is being made to secure his conviction.

MOLINE MENTION

J. S. Patton, assistant local trade manager for the Moline Plow company under Trade Manager P. M. Price, leaves this city Thursday for Portland, Ore. Mr. Patton's departure is in the nature of a promotion, and he goes to the Moline-Bain company, of Portland, as a general traveler. He will take his wife and child with him to make their future home in the coast city. The Moline-Bain company manufactures wagons, and a general traveler is appointed because it is wished to make a special effort on this line during the coming year. A. J. Colt, of Chicago, an eastern Illinois traveler for the Moline Plow company, will assume the duties of assistant local trade manager here in place of Mr. Patton.

High school boys are beginning to get interested in football and with the opening of school Aug. 31 they will begin regular practice. A good many of the members of the team last year are out of school this year but there is a promising crop of candidates, and a good team will be developed. Arrangements are being made for a game between the alumni and the high school for Sept. 12, that date being chosen so that the college boys will still be at home to take part in the contest.

The Moline Regulars went down to a most unmerciful defeat Thursday afternoon, the trouncing being executed by the Olivers, of Woodstock, Ill., 24 to 3. Avery was put in the box for the locals to start with, and five times the plate was crossed the first inning, and in the second six scores were made on him. Avery pitched two more innings and then Young was put in the box, but the visitors found his curves as they did Avery's, though the boys pulled themselves together for three short innings and managed to hold the Olivers down to three scores. In the sixth Young was generous with his hits, and finally he was taken out and Turk was put in the box, but the fielders were kept as busy as before and when the last inning was ended, the boys gave a sigh of relief.

John Edwin Hiatt, a well known Moline boy, died at the home of his parents, 903 Fourth avenue, at 2:15 Thursday afternoon, after an illness with typhoid fever beginning two weeks before his death. The young man was born Dec. 24, 1880, in Knox county. He came to Moline five years ago, during which time he had won for himself many friends. Since the opening of the Velie Carriage plant he had been employed there, prior to which he had worked at the Seehler Carriage company's plant. He was a drifter by trade. His parents, Mr. and Mrs. J. D. Hiatt, three brothers at home, Will, Earl and James, and a married sister in Chicago, Mrs. Lizzie Burch, survive him. He was a member of the First Methodist church of this city. The funeral was held from the First Methodist church this afternoon at 3 o'clock. Rev. M. V. Crumbaker officiating.

Work on the interurban extension to Watertown has been completed and Engineer Mappedor, who built the road, will leave the city in a few days. It is undecided whether to build the bridge to Campbell's island this fall or not. The bridge will probably be put in when the water is at a low stage, uncovering the dam, and this may not happen this season. The line is complete except the viaduct over the C. & B. & P. road at Warner crossing, and that situation is still under dispute.
